Personification of a Building

Let's Go

Let's look at an example of personification and a building

I am skyscraper tall
With glass for teeth
My skin is concrete
And sometimes I creak

What emotions might a building feel if it were a person?

Let's take a closer look

Choose a building or a room in a building

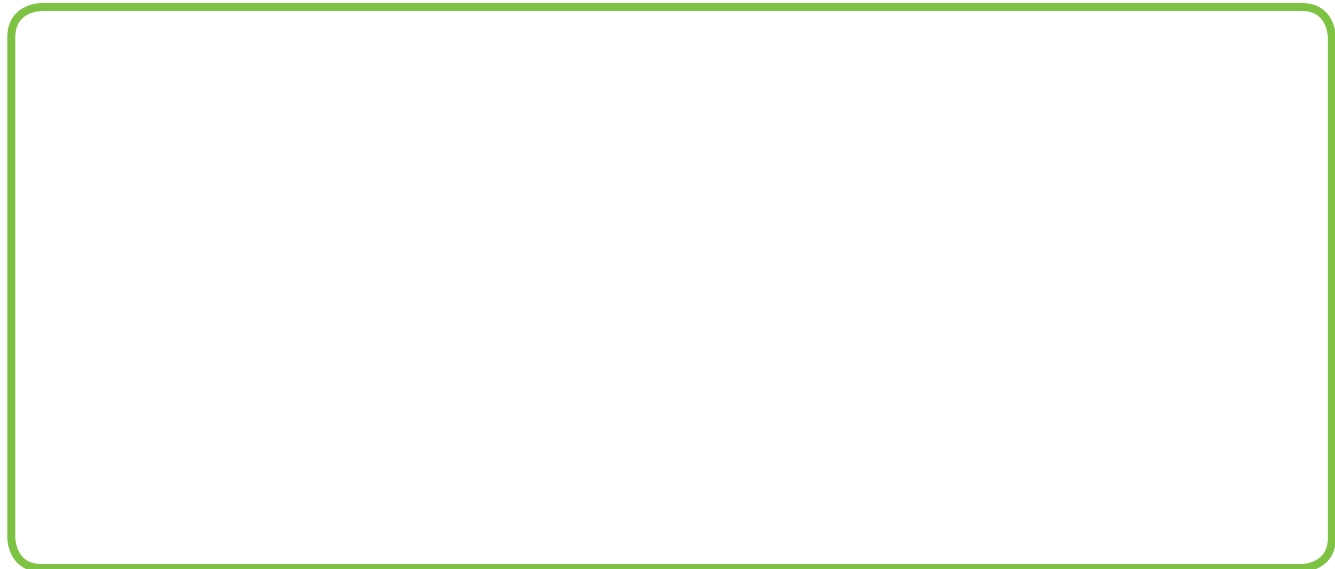

Which building or room will you pick? Let's think of some examples

Domestic

- House
- Flat
- Bungalow

Public

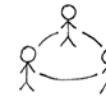

- Hospital
- School
- Church

Thinking of your building

If this building could speak, what would it say?

If this building could feel, what would it feel?

If this building could taste, what would it eat?

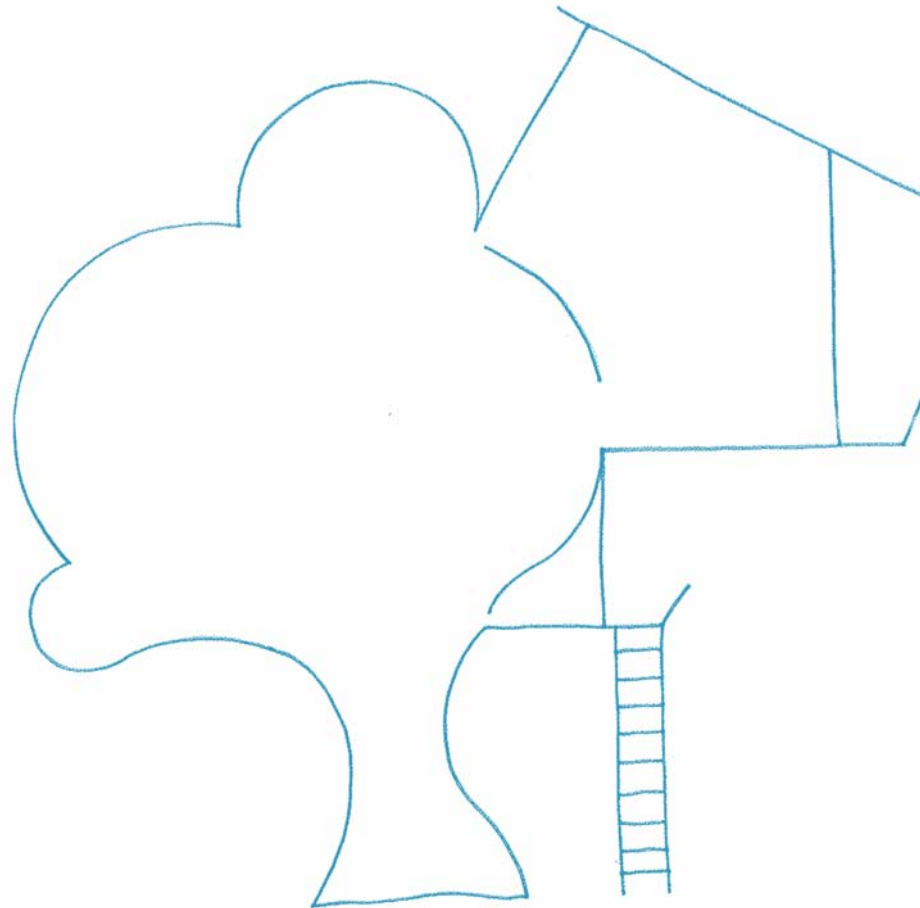

If this building had emotions, what would they be?

Write a two stanza poem in which your favourite building is personified

Let's share our poems

What have we learnt about architecture?

Let's fill in our learning brick

a word

an image

an idea

a feeling
