Looking at the
Design of our School Grounds

Let's Go

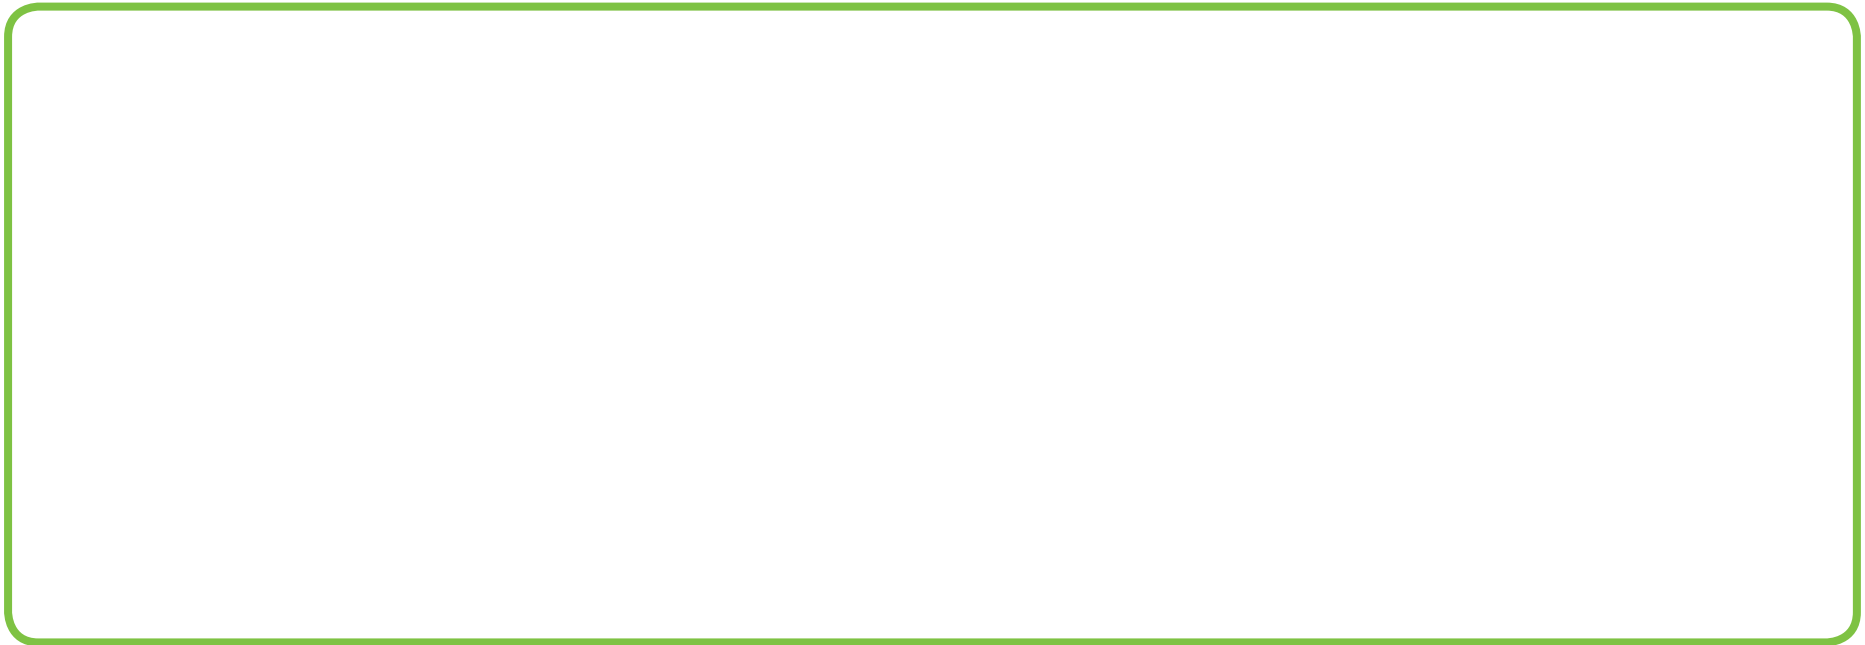

Outdoor spaces are important to a well-designed school

What are the main outdoor spaces in our school?

Let's take a closer look

What are the properties of 2-D and 3-D shapes?

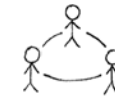

MyGreenSchool

An
Eco-design
resource

Open
City

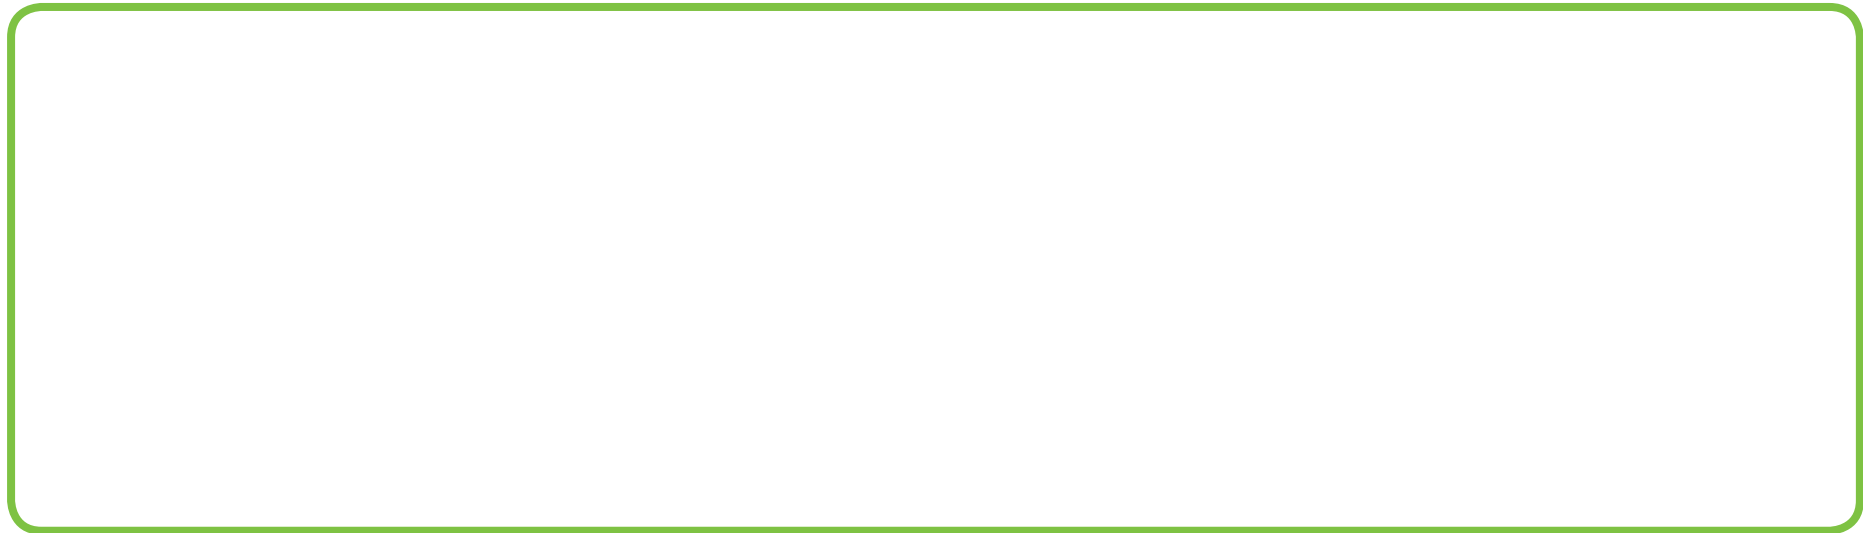

Let's measure and look at the 2-D and 3-D shapes in the school grounds

2-D shapes – Look at the façade of the building: windows, doors, and arches

3-D shapes – chimney pots, individual elements on the tops of buildings

Let's share our findings

What have we learnt about architecture?

Let's fill in our learning brick
